This book is based on the authors personal experience with Type II Diabetes and its effects on her body. After strictly adhering to the recommended regimen of daily blood draws, medication and extreme dietary adjustments over the course of many years, Leonida Lidman still found herself in great physical and emotional pain. It was only with the discovery of babys milk and the solution to the sudden fluctuations of blood glucose that she was able to regain much of the physical energy she enjoyed before diabetes afflicted and tortured her body.
