language: English, abstract: There are many cases that have
been observed where the shareholders capital was not
adequate enough to support the company s working capital
requirement which matter a lot to the companies growth and
survival. Majority of time it has been observed and analysed
that the companies considering to meet its working capital
through the external sources are aware of every aspect of the
different financial sources. It is important for the companies to
take certain parameter (interest rate, term of usage, impact on
company s financial leverage, conditions of lending
agreement, time to get the lending approval and the impact of
proposed source on the company s financial ratios) into
consideration while making the financing decisions. The theory
of Capital Structure is extensively be used to get insight that
how much risky is the company s approach in using external
sources (prominently debt). The Trade-off theory...
