## MONEY: WHO HAS HOW MUCH AND WHY

[DOWNLOAD](#)

Scribner Book Company, 1997. Hard cover. Book Condition: New. Dust Jacket Condition: New. New in new dust jacket. Sewn binding. Cloth over boards. 254 p. Audience: General/trade. From Library Journal In his best-selling *Two Nations* (LJ 3/15/92), political scientist Hacker examined the role of race in the social and economic life of America. In his latest work, he argues that an equally enormous financial division separates Americans. He explains why there are increasingly more individuals at the extremes of the income scale while the middle is contracting. Besides the income gap between blacks and whites, Hacker shows where immigrants stand on the income scale, and he assesses the financial disparities between the sexes. He also explores how other elements? e.g., greed, talent, and education? are factored into the income gap equation. Hacker combines detailed data on individual incomes and wealth in the United States with an exceptional analysis of economic and social class divisions. His well-researched work will interest scholars and students as well as the general public. Recommended for academic and public libraries. ? Ali Abdulla, East Carolina Univ., Greenville, N.C. Copyright 1997 Reed Business Information, Inc. From Kirkus Reviews Anecdotal audits of American assets and incomes that (like Wall Street's jest about economists laid end-to-end) never reaches a conclusion. Drawing on scores of secondary sources, Hacker (*Political Science/Queens College; Two Nations*, 1992, etc. ) offers a hit-or-miss canvas of what well-paid, or at least well-regarded, US citizens make for working at various trades and their net worths. Inter alia, he provides selective data on the earning power of doctors, lawyers, and corporate chiefs, plus a host of other high-profile callings, including coaches of big-time college teams, film stars, school teachers, sports professionals, university professors. Conspicuous by their absence, however, are dentists, entrepreneurs (who, the author breezily asserts, can...
